MEMORANDUM FOR: Deputy Director for Administration

OS REGISTRY

FROM: [REDACTED]

Director of Security

FILE *Reports 5*SUBJECT: Office of Security Significant Activities
Week of 24 July 1980 (U)

REFERENCE: DDA Administrative Instruction No. 74-5

1. This memorandum is for information only. (U)
2. The activities of the Office of Security during the week of 24 - 30 July 1980 were highlighted by the following items:

a. A Physical Security Survey Officer visiting [REDACTED] the scene of a recent armed assault on an Agency officer's residence, has made a number of personnel protection recommendations; but has advised that the residential security [REDACTED] appears basically sound. (S)

b. During the reporting period the Office received a copy of Mr. William E. Colby's manuscript entitled Intelligence for the 80's for review. Except for the revelation regarding the size of equipment of the [REDACTED] concerning which we deferred to NFAC, the manuscript contained no classified information. (C)

c. On 24 July, the Chief, Information Systems Security Group, briefed members of the Computer Security Subcommittee of SECOM on the trend by contractors toward multicompartmented computer processing (the simultaneous processing in one system of SCI data belonging to two or more Intelligence Community members). The purpose of the briefing was to alert the agencies to the security hazards of this type of processing if not properly controlled and to elicit the cooperation of the agencies in developing necessary procedures and policies to insure the security of this mode of processing.
